Unusual Fire and Explosion Hazards : No data available

Hazardous Combustion Products : No data available

5.3 Advice for firefighters

No data available

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions : No special controls or personal protection required under conditions of intended use.
 In the event of bulk spills, wear suitable protective eyewear, clothing, protective boots and protective gloves. Evacuate immediate area. Ensure adequate ventilation. Refer to Section 8.

Emergency Procedures : Ventilate area. Contain spilled product. For small spills, add suitable absorbent material.
 Scoop up and place in an appropriate liquid-tight container equipped with a tight cover for disposal.

For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.
 Place spilled material in an appropriate, liquid-tight container equipped with a tight cover for disposal.
 Minimize contact of spilled material with soils to prevent runoff to surface waterways.
 Dispose of in accordance with Section 13.

6.2 Environmental precautions

Prevent spilled material from entering storm sewers or drains, waterways, and contact with soil.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures : No data available

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Handling : Avoid contact with eyes. Avoid prolonged or repeated exposure to skin or mucous membranes, and breathing mists/vapors.
 Use in a well ventilated area, away from all sources of ignition.
 Keep container closed. Wash thoroughly with soap and water after handling.

7.2 Conditions for safe storage, including any incompatibilities

Storage : Keep containers tightly closed, away from heat and light and store at normal temperature.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure controls

8.1 Engineering Measures/Controls : No special controls are required under conditions of intended use. Local exhaust ventilation should be provided when handling bulk product.

8.2 Personal Protective Equipment

Pictograms :

Respiratory : In the event of a bulk spill, and where risk assessment shows that air-purifying respirators are appropriate, a NIOSH (US) or CEN (EU) -certified air-purifying respirator equipped with organic vapor cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, when adequate oxygen is present and as a backup to engineering controls. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

Eye/Face : Wear eye/face protection

Hands : Wear protective gloves

Skin/Body : No special personal protection required under conditions of intended use. In the event of a bulk spill, wear appropriate protective clothing.

8.3 General Industrial Hygiene Considerations : Handle in accordance with good industrial hygiene and safety practice.
