

BABY'S DHA

DHA is a major building block of the brain, which roughly doubles in size during the first year of life. Adequate intake of DHA is critical for proper brain and visual development.*

Certified Sustainable | **Better Absorption*** | **No Fishy Aftertaste**

SUGGESTED USE: For infants 0-12 months, 1-5 milliliters daily (based on infant body weight, see chart on box), with food, breast milk, or infant formula once daily, or as directed by your pediatrician. Store bottle with original cap in refrigerator.

Do not take if tamper-evident seal is broken or missing. Refrigerate after opening. Best if used within 3 months after opening. Keep out of the reach of children.

Warning: Consult with your physician before taking this product if your baby has a known medical condition or is taking medications (including blood thinners).

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

†Triglyceride form omega-3s are better absorbed than ethyl ester form omega-3s. This product and its ingredients do not contain common GE genes or proteins. Visit igenprogram.com For information about heavy metal testing on this product, scan the QR code on the box.
