#### **4. FIRST AID MEASURES**

##### **Description of first aid measures**

##### **Inhalation**

Get immediate medical attention if any breathing difficulties do occur. Move to fresh air in case of accidental inhalation of vapors. Artificial respiration and/or oxygen may be necessary.

##### **Skin Contact**

In the case of skin irritation or allergic reactions see a physician. Wash off immediately with soap and water. Remove all contaminated clothes and shoes.

##### **Eye Contact**

Wash eyes immediately with large amounts of water for at least 15 minutes, especially under the eyelids.

<b>Ingestion</b>	Consult an eye specialist if irritation persists. Rinse mouth with water. Seek medical attention immediately.
<b>General information</b>	Seek medical assistance if discomfort occurs or symptoms persist.
<b>Most important symptoms/effects, acute and delayed</b>	Direct contact with the eyes may cause irritation. May cause skin irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.
<b>Indication of any immediate medical attention needed</b>	Show this SDS to the treating physician

## 5. FIRE-FIGHTING MEASURES

<b>Suitable extinguishing media</b>	Water mist, carbon dioxide, alcohol resistant foam, dry powder.
<b>Unsuitable extinguishing media</b>	Do not use water jet as an extinguisher, as this will spread the fire.
<b>Special hazards arising from the substance or mixture</b>	Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flashback. During fire, gases hazardous to health may be formed. Combustion products may include carbon oxides.
<b>Special protective actions for fire-fighters</b>	Keep fire exposed containers cool by spraying with water. Contain fire run-off to protect the environment. Do not breathe fumes.
<b>Special protective equipment for fire-fighters</b>	Use self-contained breathing apparatus and full protective clothing must be worn.

## 6. ACCIDENTAL RELEASE MEASURES

<b>Personal precautions, protective equipment and emergency procedures</b>	Put on appropriate personal protective equipment.
<b>Environmental precautions</b>	Avoid release to the environment. Avoid dispersal of spilled material with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
<b>Methods and material for containment and cleaning up</b>	Use of non-combustible absorbent material to clean up spill. Clean area to prevent a slip hazard. Use non-sparking tools and equipment. Prevent static discharges.

## 7. HANDLING AND STORAGE

### Precautions for safe handling

#### Protective measures

Put on appropriate personal protective equipment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Do not use near open flames, sparks, or other ignition sources. Utilize safe handling and transportation techniques. Do not eat, drink, or smoke while handling.

#### Conditions for safe storage including any incompatibilities

Do not expose to temperatures exceeding 50 °C/122 °F. Do not store near heat, hot surfaces, sparks, open flames and other ignition sources. Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10), food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store it in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control parameters

#### Occupational Exposure Limits

Chemical name	CAS No.	OSHA PEL	NIOSH REL	ACGIH TLV
Ethanol	64-17-5	1000 ppm (TWA) 1900 mg/m <sup>3</sup> (TWA)	1000 ppm (TWA) 1900 mg/m <sup>3</sup> (TWA)	1000 ppm (STEL)
Alpha-Pinene	80-56-8			20 ppm (TWA) Dermal Sensitizer

#### Appropriate engineering control

Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Explosion-proof general and local exhaust ventilation. Good general ventilation should be used. Ventilation rates should be matched to conditions. Provide eyewash stations and safety shower.

### Individual protection measures

#### General protective and

Avoid contact with skin, eyes or clothing. Wear suitable

gloves, eyes, and face protection. Do not eat, drink or smoke when using this product.

**Respiratory protection**

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Respirator type: Chemical respirator with organic vapor cartridge.

**Hand protection**

Wear suitable gloves.

**Eye protection**

Wear safety glasses with side shields (or goggles).

**Body protection**

Wear suitable protective clothing.
