USE ONLY AS DIRECTED BY A PHYSICIAN
 Directions for Preparation and Use

Your child's health depends on carefully following these directions. Ask your child's doctor if you need to use cooled, boiled water for formula preparation. Depending on the child's specific needs, preparation will vary as prescribed by physician. Follow physician's instructions carefully.

- 1 Wash your hands, surfaces, and utensils
- 2 Add powder; return dry scoop to can
- 3 Cap container; shake well

Once feeding begins, use within 1 hour or discard

Storage: Once mixed, store container of prepared formula in refrigerator and feed to child within 24 hours. Store unopened or opened can at room temperature; avoid extreme temperatures. Use opened can contents within 1 month.

Warning: Never use a microwave to warm formula. Serious burns can result.
