Safety Data Sheet

Section 1

Product and Company Identification

Manufacturer

U-Bramds, LLC
27121 Calle Arroyo
Suite 2220
San Juan, Capstrano, CA 92675
United States of America
Phone: 949-209-1609
Email: jyeatman@u-brands.com

Emergency Phone Numbers

847-285-1888 Normal Business Hrs.
USA & Canada Chemtrec 800-424-9300

International Chemtrec 703-527-3887

Recommended Usage: Writing on Whiteboards

Other Identifier: Writing Implement

Product Name: Sino Marker -Dry Erase Marker

Product Code: 1296510

Section 2 Hazards Identification

Classification of the Mixture: Clear or slight hazy straw liquid. Orange peel like odor.

OSHA/HCS status : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification of the substance or mixture : FLAMMABLE LIQUIDS - Category 3

GHS label elements

Hazard pictograms :

Signal word : Warning

Hazard statements : Flammable liquid.

Precautionary statements

Prevention : Keep away from heat, hot surfaces, sparks, and open flames.

Storage : Store in a well-ventilated place. Keep cool.

Disposal : Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified : None known.

Section 3 Composition Information on Ingredients

Ingredient

WT %

CAS

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

Occupational exposure limits, if available, are listed in Section 8.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Section 4 First Aid Measures

Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. If redness, burning, blurred vision or irritation persists, transport to nearest medical facility for additional treatment.

Skin: Flush skin with water, wash with soap and water. If irritation occurs, get medical attention. Remove contaminated clothing. Do not reuse clothing until cleaned. If material is injected under the skin, transport to the nearest medical facility for additional treatment. If redness, swelling, pain and/or blisters occur, transport to the nearest medical facility for additional treatment.

Ingestion: Do NOT induce vomiting and obtain medical attention. Have victim rinse mouth out with water. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If the victim has difficulty breathing or tightness of the chest, is dizzy, vomiting or unresponsive, give oxygen with rescue breathing or CPR as required and transport to the nearest medical facility.

Most important symptoms/effects, acute and delayed.

Skin contact : No known significant effects or critical hazards.

Ingestion : No known significant effects or critical hazards.

Inhalation: No known significant effects or critical hazards

Eye contact : No known significant effects or critical hazards.

Over-exposure signs/symptoms

Skin contact: No specific data

Ingestion: No specific data

Inhalation No specific data

Eye contact : No specific data.

Section 5 Fire Fighting Measures

Extinguishing media: CO₂, dry chemical, foam **Special firefighting measure:**

The material as received will not support combustion, however its residues may; therefore, procedures for an oil fire should be followed. Use self-contained breathing apparatus. Use foam or dry chemical to extinguish fire. Water may be used only to keep surrounding containers cool. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode.

Section 6 Accidental Release Measures

- | | |
|--|---|
| ☐ Eliminate ignition sources and ventilate area. | ☐ Advise EPA/state agency if required. |
| ☐ Absorb spillage with inert absorbent material. | ☐ Use proper personal protective equipment for clean-up. |
| ☐ Contain spill and keep from entering waterways or sewers. | ☐ Treat contaminated absorbent same as spilled product. |

Section 7 Handling and Storage

Handling and Storage Precautions: Avoid heat, open flames, including pilot lights, and strong oxidizing agents. Use explosion-proof ventilation to prevent vapor accumulation. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Have appropriate fire extinguishers and spill clean-up equipment in or near storage area.

Work/Hygienic Practices: Wash with soap and water before eating, drinking, smoking, applying cosmetics, or using toilet. Launder contaminated clothing before reuse. Properly dispose of contaminated leather articles such as shoes or belts that cannot be decontaminated. Contaminated leather articles including shoes cannot be decontaminated and should be destroyed to prevent reuse.

Section 8 Personal Protection/ Exposure Controls

Engineering Controls: Use adequate ventilation to keep vapors and mists of this material below applicable standards. Recommended work place control parameters - based on Potassium Hydroxide ACGIH TWA 2 mg/m³ Ceiling.

Respiratory Protection: If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, an approved respirator must be worn. Respirator selection, use and maintenance should be in accordance with the requirements of the OSHA Respiratory Protection Standard, 29 CFR 1910.134.

Skin Protection: Use protective clothing that is chemically resistant to this product. Acceptable materials for gloves and aprons are: neoprene, nitrile rubber or viton.

Eye Protection: Use safety glasses or goggles. Have suitable eye wash water available.

Other/General Protection: For mists and vapors: Air Purifying, organic vapor cartridge, NIOSH approved respirator. Use selfcontained breathing apparatus for environments with unknown concentrations or emergency situations.

Section 9 Physical and Chemical Properties

Appearance

Physical State: This SDS is for the finished marker and reflects the final product, a dry erase marker.

Color: N/A

Odor: N/A

Odor Threshold: N/A

PH:N/A

Melting Point: N/A

Burning Point: N/A

Flash Point: 43'C

Burning Time: N/A

Burning Rate: N/A

Evaporation Rate: N/A

Flammability: N/A

Lower and Upper Explosive Limits: N/A

Vapor Pressure: N/A

Vapor Density: N/A

Relative Density: N/A

Solubility: N/A

Solubility in Water: N/A

Partition Coefficient: N/A

Auto Ignition Temperature: N/A

Decomposition Temperature: N/A

SADT: N/A

Viscosity: N/A

Aerosol Product: No

Section 10 Stability and Reactivity

Reactivity: No specific test data related to reactivity available for this product or its ingredients.

Stability: Stable

Conditions to avoid: Under normal conditions of storage and use, hazardous reactions will not occur.

Incompatibility: None

Decomposition Products: Under normal conditions of storage and use, hazardous decomposition products should not be produced..

Hazardous Polymerization: Will not occur.

Section 11 Toxicological Information

Information on toxicological effects

Acute toxicity No known significant effects or critical hazards.

Carcinogenicity No known significant effects or critical hazards.

Mutagenicity No known significant effects or critical hazards.

Teratogenicity No known significant effects or critical hazards.

Reproductive toxicity No known significant effects or critical hazards.

Irritation/Corrosion No known significant effects or critical hazards.

Sensitization No known significant effects or critical hazards

Specific target organ toxicity (single exposure): No known significant effects or critical hazards

Specific target organ toxicity (repeated exposure) : No known significant effects or critical hazards

Aspiration hazard: No known significant effects or critical hazards.

Information on the likely routes of exposure: N/A

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

General : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Numerical measures of toxicity No known significant effects or critical hazards.

Section 12 Ecological Information

Toxicity No known significant effects or critical hazards.

Persistence and degradability No known significant effects or critical hazards.

Bioaccumulative potential There are no data available on the mixture itself

Other adverse effects : No known significant effects or critical hazards.

Section 13 Disposal Considerations

Avoid release to the environment. Dispose in a safe manner in accordance with national, state and local regulations. Not a RCRA hazardous waste if uncontaminated. If “used” RCRA criteria must be determined. Dispose of container by recycling or if permitted incineration.

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14 Transportation Information

	DOT Classification	TDG Classification	Mexico Classification	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-	-

Transport hazard class(es)	-	-	-	-	-
Packing group	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.
Additional information	-	-	-	-	-

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Section 15 Regulatory Information

U.S. Federal Regulatory Information:

SARA 302 Threshold Planning Quantity: N/A

SARA 304 Reportable Quantity: N/A

SARA 311 Categories:

Acute Health Effects:	No
Chronic Health Effects:	None
Fire Hazard:	No
Sudden Release of Pressure Hazard:	No
Reactivity Hazard:	No

EPA/TSCA Inventory: The components of this product are listed on the EPA/TSCA inventory of chemicals.

EPA Hazard Classification Code: Not applicable

CERCLA: No chemicals in this product are subject to the reporting requirements of CERCLA.

SARA. 311/312 Classification: N/A

WHMIS Classification: Not controlled under WHMIS

Other Regulations: All components of this formulation are listed on the CEPA-DSL (Domestic Substance List)

U.S. Federal regulations : United States inventory (TSCA 8b): This material is listed or exempted.

This product does not require a Safe Harbor warning under California Prop. 65.

This product does not contain Chemicals known to State of California to cause cancer, birth defects, or reproductive

Section 16 Other Information

SDS Date Prepared: 09/13/2021

SDS Revision Date: 09/13/2021
