**SPILLS:**

Appropriate personal protective equipment must be worn before and individual(s) involved in a spill cleanup can proceed.

**Small Spills (< 1 gallon):** Appropriate personal protective equipment for small spill falls under caption rating - B (goggles and gloves).

Maximize the ventilation by opening doors and windows and insure that you secure all sources of possible ignition. Use absorbent material to remove spill and discard absorbent material into appropriate closed container for disposal. Dispose properly in accordance to local, state and federal regulations. Wash all spill affected areas and if applicable the outside of container with plenty of soap with lukewarm water. Remove any contaminated clothing and wash thoroughly before reuse.

**Large Spills (≥ 1 gallon):** Appropriate personal protective equipment for large spill falls under caption rating - H (goggles, gloves, apron, vapor

mask). Do not allow unprotected individuals to assist and/or in the immediate vicinity area of spill. Dike and contain the spill with inert material such as sand. Use only non-sparking tools for cleanup. Transfer liquid to containers for disposal. Gather all dike material for disposal and place in appropriate disposal containers. Dispose properly in accordance to local, state and federal regulations. Wash all spill affected areas. Remove any contaminated clothing and wash thoroughly before reuse. If applicable wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of the municipal sewers and open bodies (streams, lakes, etc) water.

**SECTION 7**
