Drug Facts

Active ingredient	Purpose
Salicylic acid 40%	Wart remover

Use ■ for the removal of common and plantar warts ■ the common wart is easily recognized by the rough "cauliflower-like" appearance of the surface ■ the plantar wart is recognized by its location only on the bottom of the foot, its tenderness and interruption of the footprint pattern

Warnings
For external use only

Do not use ■ on irritated skin or on any area that is infected or reddened ■ on moles, birthmarks, warts with hair growing from them, genital warts or warts on the face or mucous membranes ■ if you have diabetes or poor blood circulation

Stop use and ask a doctor if discomfort persists
Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center (1-800-222-1222) right away.

Directions
■ wash affected area ■ may soak wart in warm water for 5 minutes ■ dry area thoroughly ■ remove medicated pad from backing paper by pulling from center of pad ■ apply ■ repeat procedure every 48 hours as needed (until wart is removed) for up to 12 weeks

Other information
■ store at room temperature
■ avoid excessive heat (27°C | 80°F)

Inactive ingredients lacolin, polybutene, rosin ester, rubber
