Camphor (synthetic) 4.8%...	Cough suppressant & topical analgesic
Eucalyptus oil 1.2%.....	Cough suppressant
Menthol 2.6%.....	Cough suppressant & topical analgesic

Uses

- when applied to chest and throat, temporarily relieves cough due to minor throat and bronchial irritation associated with the common cold
- when applied to muscles and joints, temporarily relieves minor aches and pains of muscles and joints

Warnings

For external use only; avoid contact with eyes.

Do not use

- by mouth
- in nostrils
- on wounds or damaged skin
- with tight bandages

Ask a doctor before use if you have

- cough that occurs with too much phlegm (mucus)
- persistent or chronic cough such as occurs with smoking, asthma or emphysema

When using this product, do not

- heat
 - microwave
 - add to hot water or any container where heating water.
- May cause splattering and result in burns.

Stop use and ask a doctor if

- muscle aches and pains worsen or persist for more than 7 days or clear up and occur again within a few days.
- cough persists for more than 1 week, tends to recur, or is accompanied by fever, rash, or persistent headache. A persistent cough may be a sign of a serious condition.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

see important warnings under "When using this product"

- adults and children 2 years and over:
 - for cough suppression
 - rub a thick layer on throat & chest
 - cover with a warm, dry cloth if desired
 - keep clothing loose about throat and chest to help vapors reach the nose and mouth
