

Section 1: Identification

Product Identifier

Product Name: Tree Hut Vanilla Body Wash

Other means of identification: None

Recommended Use: Personal Beauty Care Product

Uses advised against: No information Available

Manufacturer Name: Sigan America, LLC

Manufacturer Address: 1111 W. McKinley Road
 Ottawa, Illinois 61350
 USA

Manufacturer Contact Phone: (815) 431-9830 ext. 18

Emergency Phone Number: In case of medical emergencies, please contact your local poison control center.

Section 2: Hazard(s) Identification

OSHA/HCS Status While this product is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

GHS label elements, including precautionary statements

Signal Word:.....No signal word.

Hazard Statement(s):.....No known significant effects or critical hazards.

Hazard pictograms:..... Not classified

General Precautionary Statements

Precautionary Statements – Prevention :Not applicable.

Precautionary Statements – Response :Not applicable.

Precautionary Statements – Storage :Not applicable.

Precautionary Statements – Disposal :Not applicable.

Hazards not otherwise classified (HNOC) or not covered by GHS :None known.

Unknown Toxicity :Not applicable.

Interaction with Other Chemicals :No information available.

Section 3: Composition/Information on Ingredients

This product contains the following ingredients that are considered to be hazardous as defined by OSHA, 29 CFR1910.1200

Hazardous Ingredients

Ingredient (INCI name)	CAS #	% Percent
None	N/A	N/A

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

Section 4: First-Aid Measures

Description of first aid measures

- Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- Skin contact:** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- Eye contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove contact lenses. Get medical attention if irritation occurs.
- Ingestion:** Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

Potential acute health effects

- Eye contact : No known significant effects or critical hazards.
- Inhalation : No known significant effects or critical hazards.
- Skin Contact : No known significant effects or critical hazards.
- Ingestion : No known significant effects or critical hazards.

Over-exposure signs/symptoms

- Eye contact : No specific data.
- Inhalation : No specific data.
- Skin contact : No specific data.
- Ingestion : No specific data.

Indication of any immediate medical attention and special treatment needed

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatment** : No specific treatment.
- Protection of first-aiders** : No action shall be taken involving any personal risk without suitable training.

See toxicological information (Section 11)

Section 5: Fire-Fighting Measures

Extinguishing media

- Suitable extinguishing media:..... Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media:..... Do not use water jet.

Special hazards arising

- from the substance or mixture:**..... No specific fire or explosion hazard
- Hazardous thermal decomposition products : Decomposition products may include the following materials
- Carbon dioxide
- Carbon monoxide
- Special protective actions for fire-fighters ... : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air)

Methods and materials for containment and cleaning up

- Small spill : Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
- Large spill : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a

designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7: Handling and Storage

Precautions for safe handling

Protective measures

Advice on general occupational hygiene

: Put on appropriate personal protective equipment (see section 8)
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking or smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8: Exposure Control/Personal Protection

Control parameters

Occupational exposure limits

Ingredient Name	Exposure limits
None.	None.

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures.....

: Wash hands, forearms, and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection.....

: Safety eyewear complying with an approved standard should be used when risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the

Skin protection

- Hand protection : Chemical- resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection : Based on the hazard and potential exposure, select a respirator that meets the appropriate standard and certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9: Physical and Chemical Properties

Appearance

- Physical State, Color: Light brown, clear viscous liquid
- Odor:Vanilla
- Odor Threshold:.....Not available.
- pH @ 25°C:6.00-7.00
- Viscosity (cPs @ 25°C):6,000-12,000cps
- Relative Density at 25°C:.....0.960-1.040
- VOC Percentage (%):.....Not available.
- Solubility:Not available.
- Flash Point:.....Not available.
- Vapor Density:Not available.
- Melting Point:.....Not available.
- Boiling Point and Boiling Range:Not available.
- Evaporation Rate:.....Not available.
- Flammability (Solid, Gas):Not available.
- Upper/Lower Flammability or Explosive Limits:.....Not available.
- Vapor Pressure:Not available.
- Partition Coefficient: n-Octanol/Water:Not available.
- Auto-Ignition Temperature:.....Not available.
- Decomposition Temperature:Not available.

Section 10: Stability and Reactivity

- Reactivity:**..... No specific test data related to reactivity available for this product or its ingredients.
- Chemical Stability:** This product is stable.
- Possibility of Hazardous Reactions:**..... Under normal conditions of storage and use, hazardous reactions will not occur.
- Conditions to Avoid:** No specific data.
- Incompatible Materials:** No specific data.
- Hazardous Decomposition Products:**..... Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11: Toxicological Information

Information on toxicological effects

- Acute toxicity: Not available.
- Irritation/corrosion: Not available.
- Sensitization: Not available.
- Mutagenicity: Not available.
- Carcinogenicity: Not available.
- Reproductive toxicity: Not available.
- Teratogenicity: Not available.
- Specific target organ toxicity (single exposure): Not available.
- Specific target organ toxicity (repeated exposure): Not available.
- Aspiration hazard: Not available.
- Information on the likely routes of exposure Not available.

Potential acute health effects

- Eye Contact: No known significant effects or critical hazards.
- Inhalation: No known significant effects or critical hazards.
- Skin Contact: No known significant effects or critical hazards.

Ingestion: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact: No specific data.
 Inhalation: No specific data.
 Skin Contact: No specific data
 Ingestion: No specific data

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects: Not available.
 Potential delayed effects: Not available.

Long term exposure

Potential immediate effects: Not available.
 Potential delayed effects: Not available.

Potential chronic health effects

Not available.

General: No known significant effects or critical hazards.
 Carcinogenicity: No known significant effects or critical hazards.
 Mutagenicity: No known significant effects or critical hazards.
 Teratogenicity: No known significant effects or critical hazards.
 Developmental effects: No known significant effects or critical hazards.
 Fertility effects: No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates
 N/A

Section 12: Ecological Information

Toxicity: Not available.
Persistence and Degradability: Not available.
Bioaccumulative Potential: Not available.
Mobility in Soil: Not available.
Other Adverse Effects: Not available.

Section 13: Disposal Considerations

Disposal methods: The generation of waste should be avoided or minimized whenever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal

RCRA classification: of spilled material and runoff and contact with soil, waterways, drains and sewers.
 Not Regulated.

Section 14: Transport Information

DOT Not regulated.
TDG Not regulated.
IMDG Not regulated.
IATA Not regulated.

Special precautions for user: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Section 15: Regulatory Information

U.S. Federal Regulations

Toxic Substances Control Act (TSCA):
 All substances are listed, or exempt from the TSCA inventory.

Food and Drug Administration (FDA)
 The product described in this Safety Data Sheet is regulated under the Federal Food, Drug, and Cosmetics Act and is safe to use as per directions on container, box or accompanying literature (where applicable)

SARA 313
 Not applicable.

CERCLA
 Not applicable.

California Proposition 65: this product is not known to contain California Prop 65 substances >1 ppm

Canadian Environmental Protection Act
 All substances are listed, or exempt from the Canadian DSL/NDSL list.

Section 16: other Information

The information herein presented makes no representation or warranties and is based on ingredients SDS and/or recognized technical sources. This information is believed to be accurate and it is intended solely to assist in evaluating the suitability and proper use of this product following the safety precautions and procedures. Final determination as to its suitability for health and safety purposes is the sole responsibility of the user. This information applies only to the product designated above and does not apply to its use in combination with any other materials, products or chemical compounds.
